Dipartimento di Scienze Chimiche e Geologiche Direttore: Prof. Rosa Cidu

## TO WHOM IT MAY CONCERN

This letter is to confirm that the contribution JNN90817 entitled "Efficient quantification by X-ray photoelectron spectroscopy and thermogravimetric analyses of the one-pot grafting of two molecules on the surface of iron oxide nanoparticles" accepted the 21st of September 2017 was scheduled to be published in 2018 on the special issue "Nanostructured iron-based spinels: synthesis, characterization, properties and applications" on Journal of Nanoscience and Nanotechnology.

Due to some delays and the time necessary to the editing process the special issue will be published in 2019.

I also confirm that , being one of the guest editor of the special issue, I am entitled to issue this declaration.

9 September 2018,

Carla Cannas

Guest Editor of the Special Issue
